

Coated Glass Quality Certification Statement

Felix Glass Optical Coating Workshop

1. Production Standard

All AR/AG/AF coated glass produced under ISO 9001 quality management system, RoHS compliant.

2. Full Inspection Flow

Raw glass incoming inspection → CNC cutting → edge polishing → ultrasonic cleaning → vacuum coating → optical performance test → surface defect inspection → dust-free packaging

3. Supporting Certificates

ISO 9001 certificate, raw material report, batch inspection record, light transmittance & haze test report, RoHS environmental certificate

4. Quality Commitment

All coated glass meets industrial & medical display optical standards, stable batch consistency for long-term mass order supply.
