

Appliance & Smart Glass Performance Test Report

Document No. : FG-ASG-001 | Rev. 1.0 | 2026 Manufacturer: Hong Kong Felix Glass Co., Limited

Test Equipment

Coordinate measuring machine, surface flatness tester, impact resistance test bench, friction durability tester, visual appearance inspection system, coating adhesion tester

Typical Evaluation Items

- Dimensional accuracy and thickness consistency
- Surface flatness and edge finish quality
- Tempered mechanical strength and impact resistance
- Silk screen printing uniformity and adhesion performance
- Surface coating friction and fingerprint resistance
- Overall appearance defect screening

Test Conclusion

Representative production samples were evaluated according to internal QC procedures aligned with common industrial inspection practices and applicable customer project specifications. Full batch test datasets are available upon formal request.

The information contained in this document is provided for reference only. Final specifications are subject to mutually approved engineering drawings, production capability review, and customer project requirements.
