

## **Appliance & Smart Glass Quality Certification Statement**

Document No. : FG-ASG-001 | Rev. 1.0 | 2026 Manufacturer: Hong Kong Felix Glass Co., Limited

### **Compliance Standard**

Cutting, tempering, printing and coating workflows follow internal ISO 9001 quality management procedures. All raw glass and processing materials comply with RoHS environmental standards.

### **Production & Inspection Flow**

Raw glass cutting → edge finishing → tempering strengthening → surface treatment / silk screen printing → dimensional & appearance inspection → stability testing → dust-proof packaging

### **Documents Available Upon Request**

- ISO 9001 factory quality system certificate
- Raw material physical performance test records
- Batch dimension and appearance inspection logs
- Tempered mechanical stability test data
- RoHS compliance documentation

### **Quality Stability**

Typical production batches are controlled for consistent flatness, uniform printing effect and reliable tempered mechanical performance. Batch-to-batch stability meets conventional household appliance integration standards.

The information contained in this document is provided for reference only. Final specifications are subject to mutually approved engineering drawings, production capability review, and customer project requirements.
