

Functional Display Glass Quality Certification Statement

Hong Kong Felix Optical Glass Co., Limited

1. Production Standard

All AR/AG/AF coated display glass is produced and inspected under ISO 9001 quality management system, fully RoHS compliant.

2. Full Traceable Production & Inspection Flow

Raw glass incoming inspection → CNC precision cutting → edge polishing → ultrasonic multi-stage cleaning → vacuum optical coating → optical performance testing → surface defect screening → dust-free vacuum packaging

3. Available Supporting Certificates

ISO 9001 factory certification, raw glass material purity report, batch production inspection record, transmittance & haze test report, RoHS environmental compliance certificate

4. Quality Commitment

Our functional display glass meets industrial, medical and automotive optical standards, stable batch consistency for long-term mass orders.
