

Quartz Glass Plate Quality Certification Statement

Document No. : FG-QTZ-PL-001 | Rev. 1.0 | 2026 Manufacturer: Hong Kong Felix Glass Co., Limited

Compliance Standard

Production and inspection processes follow internal ISO 9001 quality management procedures. Raw fused silica materials comply with RoHS standards.

Production & Inspection Flow

Raw cutting → precision grinding / polishing → ultrasonic cleaning → functional coating (on request) → dimensional & flatness inspection → defect screening → dust-proof packaging

Documents Available Upon Request

- ISO 9001 system certificate
- Raw material purity reports
- Batch dimensional inspection logs
- Thermal stability test data
- RoHS compliance certificate

Quality Stability

Finished quartz plates maintain consistent flatness and uniform surface texture. Batch repeatability is controlled for long-term industrial equipment integration.

The information contained in this document is provided for reference only. Final specifications are subject to mutually approved engineering drawings, production capability review, and customer project requirements.
