

Quartz Glass Tube Quality Certification Statement

Felix Glass Document No. : FG-QTZ-TB-001 | Rev.1.0 | 2026

Felix Glass specializes in custom precision optical components for machine vision, laser systems, medical optics, spectroscopy and industrial imaging. OEM & ODM manufacturing services are available worldwide.

Quality Compliance

Manufacturing and inspection are performed in accordance with our ISO 9001 quality management procedures. All quartz glass tube materials comply with RoHS environmental standards.

Production & Inspection Flow

Raw quartz material sorting → precision cutting → thermal forming / bending → end finishing → ultrasonic cleaning → dimensional inspection → visual defect screening → standardized packaging

Available Supporting Documents Upon Request

- ISO 9001 management certificate
- Raw material purity report
- Batch dimensional inspection records
- High-temperature stability test data
- RoHS compliance certificate

Quality Description

Finished quartz tubes maintain consistent structural stability and uniform wall thickness. Batch repeatability is controlled for long-term industrial integration.

The information contained in this document is provided for reference only. Final specifications are subject to mutually approved engineering drawings, production capability review, and customer project requirements.
